They live with Udo Lindenberg in a flat place. What are your most beautiful remembrances of this time? Rump: With Udo, I often sat in the old fish market in Hamburg. We looked at Porto Livre and exchanged a beer over God and the world. In that time, we were still in the beginning and we are very what to do. It was an exciting moment. Rump: Udo became a mother, a great poet, and one of the most successful Kästone in Germany. I think he would be more relaxed today. But he also had a differing moments when the alcohol made him unpredictable. How is her relationship with Udo Lindenberg today? Rump: We are friends with a € 80t and everyone does his things. Tina Turner sang her mother "I wrote a letter" of them, but they never knew her. Would you like to know them? What would you like to tell her? Rump: I would love to know it. There was a lot to say. But if the veneration for this wonderful woman is so big as mine, the words are missing. I think I just want to adore it and open the sister €. Rump: like a gentleman and colleague. And a bigger one. He brought me a box of beer from Bavaris to the guard -chuva and his friend Ronnie Wood each bottle of Jack Daniels. And we begin to play as it is soaked among the mother. You have many years of experience in the Streak of Mother. How do you wait for the future with streaming and company services? Rump: The mother has become inflated by signings of digital mother and is not more valued than before.
