**Passage #22—The Water Cycle**

It is amazing to think that a detective might have stepped in the water you drank last night. That is because the water you use to drink, shower, or swim in is very old. The earth has a flood amount of water that keeps going around and around in what is known as the water cycle.

The water cycle has four main phases. The first phase is called evaporation. This occurs when the sun heats up the water in rivers, lakes, and oceans. The heat turns some of the water into vapor, or steam. At that point, the water is said to evaporate, as it becomes part of the air.

The next phase of the water cycle is called condensation. Water vapor in the air becomes cold, which causes it to change back into liquid form. The drops of water come together and form clouds. When the water becomes so heavy that the air cannot hold it any more, the next phase occurs.

In the phase of the water cycle called precipitation, dark clouds release their water, and it falls back to the earth. In warm weather, clouds release water in the form of rain or hail. When it is cold, water falls as snow or sleet. The rain, hail, snow, or sleet falls on land as well as on rivers, lakes, and oceans. This begins the final phase of the water cycle, called collection.

When water falls on land, the earth collects it. The water might run along the ground, where plants and animals may drink it. It might flow in to rivers, streams, or lakes. Or the water might soak deep into the earth and become groundwater. Groundwater supports plants, which ask their roots down to find it. Human

--

**Continents and Oceans**

From space, the Earth looks blue. This is because the surface of the Earth is mostly water. The surface is about 70% ocean and only 30% land. People have given the land and ocean names. The land is divided into seven continents. They are (in order by size): Asia, Africa, North America, South America, Europe, and Australia. The five oceans are (in order by size): the Pacific, Atlantic, Indian, Southern, and Arctic.

**Label the continents and oceans.**

1. How many continents are there? \_\_\_\_\_
2. How many oceans are there? \_\_\_\_\_
3. Which continent is also an island? \_\_\_\_\_
4. Which continent covers the South Pole? \_\_\_\_\_
5. Which ocean surrounds Antarctica? \_\_\_\_\_
6. Which ocean covers the North Pole? \_\_\_\_\_
7. Which ocean is east of Africa and west of Australia? \_\_\_\_\_
8. Which ocean is west of the Americas and east of Asia? \_\_\_\_\_
9. What percent of the Earth is covered by water? \_\_\_\_\_
10. What percent of the Earth is covered by land? \_\_\_\_\_

**The Five Themes of Geography**

- 1. Location**  
**Where is it?**  
**Why is it located there?**  
Absolute location is given in degrees of latitude and longitude.  
Relative location depends upon point of reference, e.g., near, far, a short drive.
- 2. Place**  
**What is it like?**  
**Physical Characteristics** - landforms (mountains, plains, etc.), bodies of water (oceans, lakes, bay, etc.), ecosystems (soil, plants, animals, and climate)  
**Human Characteristics** - bridges, roads, buildings, culture, language  
All places have features that distinguish them from other places.
- 3. Human/Environment Interaction**  
**How do people interact with and change their environment?**  
Depend on the environment  
Adapt to the environment  
Modify the environment
- 4. Movement**  
**How are people and places linked by communication and the flow of people, ideas and goods?**  
Transportation, communication, trade  
Patterns of movement such as migration  
Linkages and connections
- 5. Regions**  
**What are their unifying features and how do they form and change over time?**  
Regions are a basic unit for geographic study.  
Geographers divide the world into regions to help them interpret  
Regions can be defined on the basis of: physical and human characteristics.

Passage 27

Name \_\_\_\_\_ Date \_\_\_\_\_

Read the paragraph. Then answer the questions.

**Remembering Stories**

The earliest people did not have a written language. Instead, people learned things by telling and listening to stories. How did storytellers recall everything? Some drew pictures on cave walls to help them remember. Some made up chants to the rhythm of drums. Other storytellers made belts or necklaces. Colored threads, beads, and special knots stood for different events.

1. The main idea of the paragraph is  
 A. long-ago drawings on cave walls.  
 B. why there were no books or magazines.  
 C. different ways storytellers recalled events.
2. A detail that tells more about the main idea is  
 A. which people became storytellers.  
 B. beads on belts helped recall things.  
 C. what kinds of stories people told.
3. In this paragraph, the word *rhythm* means  
 A. rocking.  
 B. singing.  
 C. musical beat.

Cheryl23/Pixabay It's a common question asked by students: "When am I going to use this?" Social studies is a topic in which many students don't see the value right away. It could be used as a worksheet also if needed. Students learn investment basics about stocks, shares, earnings, price, value, growth, and mutual funds. Page 8 Geography - Maps and Water and Land Review. Students Develop Critical Thinking Skills For students to develop strong decision making and critical thinking skills, they need to understand perspectives, concepts, and principles that are all part of social studies. The terms include: landforms, glaciers, plains, hills, mountains, lava, volcano, earthquakes, sinkholes, landslides, moraines, glacial grooves, delta, sand dunes, magma, the layers of the earth, three types of volcanoes (composite, cinder cone, and shield). Page 4 Geography of Australia (Worksheet) Test your students' knowledge of the major physical features of Australia with this free worksheet! This worksheet is part of the Geography of Australia presentation (\$6.00). This product aligns to the following Georgia Standards of Excellence for 6th Grade Social Studies: SS.6.G.1.1 Locate selected features of Australia. A. Locate on a world and regional political-physical map: the Great Barrier Reef, Coral Sea, Uluru (Ayers Rock), Indian and Pacific Oceans, Great Dividing Range, and Great Victoria Range. What the Health Movie Questions A viewing guide for ESL students levels lower intermediate (B1) to advanced students or students grades 6-12. Don't have the time to watch the whole movie again? Tina Certified Tutor Mountain Empire Community College, Certificate, Medical Office Assistance. They learn to appreciate justice, equality, and building responsible relationships in society. They understand the structure of the country's government and also learn how resources are allocated. I've got you covered. This is a viewing guide in the blank, questions about What the Health (2017). For older students, this may involve learning how to read government documents or understanding why it is important to vote in local elections. World War II (Part One) These quizzes are mPage 15Review geography and map vocabulary words such as mountain range, tributary, equator, hemispheres, and plains. Students may choose 10 or all 12 (for extra points) to answer. Students struggle with knowing where not only countries are, but regions as well. Students have the opportunity to review parts of a map, including scale, compass, rose, and reading locations. In sum, students learn about their roles, rights, and responsibilities. Students also review types of water and identify what bodies of water are saltwater and fresh water. I also have students write a biography and read different read alouds. They are: 1. Help them narrow down their options with this forced grid and go deeper in their learning! Students identify their favorite gods in a side-by-side comparison. Students Respect History Social studies is also essential for helping students understand history and its influence on the modern world. However, as a teacher, it can be difficult to find the exact map you're looking for (usually a blank map) or creating one yourself is very time consuming. Courses in social studies show students how to reflect on societal concerns, appreciate global issues, read pertinent literature, and identify important community resources. One solution to this problem is to have regular assessments that have the same style as the standardized tests. Students will have an opportunity to then identify physical features of the US like the Rocky Mountains, and the Great Plains. A common school of thought is that failure to understand the past means that society is doomed to repeat mistakes. I chose ones I specifically read alouds about. In these classes, students become informed future voters. within the time frame above. MORE FROM REFERENCE.COM Our completely free 6th Grade Reading practice tests are the perfect way to brush up your skills. Why is understanding the world on a social level so crucial? Students in elementary school through college explore a broad range of social studies topics in school to build understanding in humanities and social sciences. Target words are emboldened and include the following vocab words: processed meat diabetesFDAmammalsproteinoanizatioPage 5Prehistory Topics Include: The Leakey Family, Indiana Jones/Archaeology, Homo Sapiens, Human Migration, Ice Breakers, Ancient Sumer, Mesopotamia, Hominids, Hunter Gatherers, The Neolithic Revolution All MEGA Units found here\*\*\*NEW\*\*\* Great Value Next Unit: River Valley Civilizations Mega Unit Classic Rome and Greece Mega Unit 4,5,6\*\*\*NEW\*\*\* Great Value The following is apart of an entire World History Workbook series. Feel free to add or change! But whatever you do, remind students that on cPage 10The document contains a tutorial to teach students why the stock market exists, and how it works, and basic investment criteria such as EPS (Earnings Per Share) and P/E Ratios (Price/Earnings). Written as you might find on the ACT / SAT / or IB exams, this reading comprehension is the perfect supplement for yourPage 12Page 13Olympian Battle Royaleby Are your students overwhelmed with the number of gods they have to study? 50 Questions (Type-able/Printable) Download only available for 1 monthPage 6This is a quiz on the early peoples of the Americas: the Eastern Woodlands, Great Plains, Southwest (Pueblo), and Northwest/Arctic Native Americans of North America; and the Aztecs and Incas of Meso & South America.Includes multiple choice, Aztec/Indian selection, fill-in-chart and short answer sections. They learn how to examine different situations and contexts and then apply different ways of thinking to new situations. For very young students, this may involve learning how to recycle or pick up litter at the park. This one file has \*a version WITH a word bank, \*a version WITHOUT a word bank, \*and an answer key. This month we're "discovering" Australia! The quiz you see here is just a quick run-through of some basic facts to make sure SOMETHING stuck. Take one of our many 6th Grade Reading practice tests for a run-through of commonly asked questions. Thus, mapping is a must in any World History class whether it be at the regular, honors, or AP level. It is important to examine history and improve upon it over time. This is why reading comprehensions such as this are so valuable.
